

# SAGAMI International Academy

## Our perspectives

SAGAMI International Academy provides Japanese language education to foreign students and also mutual understanding of different cultures, tries to improve communication ability and deepen the understanding of others, and thus aims to contribute to creation of coming multi-cultured symbiosis society and development of their local societies.

For these purposes, we make efforts as follows.

### 1. Japanese language education

The teachers with skills and experiences teach students based on the course program which enables well-customed methods for individuals. The seating capacity of one class is 16 students, which makes nice environment for learning and teaching. Output of the study will be assessed through Japanese Language Proficiency Test and Examination for Japanese University Admission for International Students.

### 2. Education for understanding different cultures

To understand Japanese culture, foreign students will experience traditional tea ceremony, flower arrangement, calligraphy, traditional music etc. as well as Japanese sports such as Judo, Kendo, Karate and Sumo. It is also important to communicate with other students and mutually understand the cultures of different countries which our foreign students are from.

### 3. Opportunity for learning other cultures

We provide many opportunities for our students to join the events together; cherry blossom party in spring, sea bathing in summer, hiking in autumn and skiing in winter. It will be good chances to learn more about Japan and make friends with other foreign students.

#### 4. Support for your stay in Japan

We will provide with our students not only the information of part time jobs but also how to find the part time job, how to make appointment, how to take interviews and advice about working and studying in Japan. When you move from our accommodation to other places, we will support you with local accommodation agencies for your pleasant and safety stay in Japan.

We hope that you will grow up through learning in our academy and also the local community will grow here and in your countries.
